

Proofcoin Whitepaper

1. Executive Summary

Proofcoin is a memecoin designed to bring fun, accessibility, and value to the cryptocurrency space. Built on both the **TON** and **Aptos** blockchains, Proofcoin merges the playful appeal of memecoins with robust blockchain technology, offering a unique experience to crypto newcomers and seasoned traders alike. With a large community-driven airdrop, Proofcoin aims to build a community that shares in its growth from day one. With a total supply of **60 billion tokens (60B)** and distribution that prioritizes community engagement, Proofcoin ensures broad and fair access.

2. Introduction and Problem Statement

The world of cryptocurrency can feel intimidating and high-stakes. Proofcoin is a fresh, playful approach to bridge the gap between finance and fun, fostering a vibrant community around a shared interest in decentralized finance and meme culture. Proofcoin's dual-blockchain structure provides flexibility for users to engage with either the TON or Aptos ecosystems.

3. Market Analysis

Memecoins have exploded in popularity, showing that communities centered on humor and engagement are powerful. With a dual focus on accessibility and community through its distribution model and dual-blockchain integration,

Proofcoin has a unique place in the market to capture both crypto enthusiasts and new users.

4. Technical Architecture

Proofcoin operates on **TON** blockchain, benefiting from their respective strengths in:

- **Security:** Both TON and Aptos prioritize strong security protocols.
- **Speed:** Users enjoy fast transaction speeds on both blockchains.
- **Flexibility:** Cross-blockchain compatibility allows users to interact with either blockchain as they choose.

5. Tokenomics

Proofcoin's total supply is **60 billion tokens (60B)**, distributed as follows:

- **Community Airdrop:** 70% (**42 billion tokens**) – The majority of tokens are reserved for a community airdrop, encouraging broad distribution and engagement. Tokens will be distributed via a **Telegram mini-app**, ensuring easy access and transparency.
- **Presale:** 10% (**6 billion tokens**) – Dedicated to early supporters and investors to foster initial community backing.
- **Liquidity:** 10% (**6 billion tokens**) – Ensures smooth trading experience by providing liquidity.
- **Team:** 5% (**3 billion tokens**) – Allocated to the core team, with a lock-up period to ensure alignment with long-term goals.
- **Ecosystem Development:** 5% (**3 billion tokens**) – Supports the growth of the Proofcoin ecosystem, including partnerships, integrations, and future innovations.

Community Airdrop through Telegram Mini-App: Proofcoin's airdrop will be distributed via a Telegram mini-app, designed to simplify the claiming process.

This app will guide users through claiming their tokens, making Proofcoin highly accessible.

6. Roadmap

1. Phase 1 – Foundation and Development

- a. Proofcoin token creation on TON and Aptos.
- b. Development of Telegram mini-app for airdrop.
- c. Launch of the Proofcoin website and social channels.

2. Phase 2 – Community Airdrop and Presale

- a. Rollout of the community airdrop.
- b. Presale event for early supporters.
- c. Community-building initiatives.

3. Phase 3 – Exchange Listings and Liquidity Provision

- a. Listing on decentralized and centralized exchanges.
- b. Liquidity provisioning to facilitate trading.
- c. Expansion of partnerships.

4. Phase 4 – Ecosystem Growth

- a. Development of additional utilities based on feedback.
- b. Staking and further ecosystem integrations.

7. Community & Governance

The Proofcoin community is key to its success. We aim to implement community-driven governance, giving holders the power to shape the project's future direction.

8. Risks and Disclaimers

While Proofcoin is designed as a fun and inclusive project, all memecoins carry risks due to high volatility and regulatory uncertainties. Users are encouraged to fully understand these risks before engaging.

9. Team and Advisors

The Proofcoin team includes blockchain developers, community builders, and crypto enthusiasts who share a vision of fun and accessible finance.
